

## OFFICE OF VITAL STATISTICS

The Office of Vital Statistics has published Montana Vital Statistics reports since 1954. Single copies of this publication are available without charge as long as the supply lasts. Copies of previous years' publications are available depending on supply. Most year's supplies have been exhausted; reference copies of those reports are available in this office, at the Montana State Library, and a number of the larger county and University System libraries around the state. Photocopies of specific tables or text from any report will be supplied on request, as time permits. Inquiries should be directed to the Research Specialist of the Office of Vital Statistics, Montana Department of Public Health and Human Services, at the address, telephone number, or e-mail address shown below.

As time permits, additional tabulations can be produced to satisfy individual requests. Uncomplicated tabulations can usually be produced without cost to the requester. In some cases, the requester may be asked to reimburse the department for production costs. Tabulations requiring extensive computer processing may require reimbursement for staff time and computer programming charges. The production of special tabulations is subject to the availability of personnel. Tables in this report and additional tabulations can be found on our web site:

The Office of Vital Statistics can only honor requests for information that do not violate the confidentiality requirements of state law or regulations of the Montana Department of Public Health and Human Services. However, confidentiality is not usually a concern in statistical reports or tables where individuals or institutions are not identified. Our address is:
